Fourth Visit: 28 days 1 hour visit w/ Dr. for 1110-above gum line polish only and Occ Adj.

Fifth Visit: 90 days for Perio Maintenance

- Items needed BEFORE surgery date:
 - Consent form signed
 - Impressions for study models and possible future night splint
 - FMX or PAN (or one on file no more than one year old)
- Medications are to be called in the patient's pharmacy; patient is to start Antibiotics and Ibuprofen one day prior to surgery:
 - Amox 500mg disp 21, tid
 - Verify with Doctor and Pt that there is no Amox allergy
 - Ibuprofen (Advil, Motrin) 800mg disp 21, tid
 - Verify with Doctor and Pt that there is no Ibuprofen contra indication
- Cost of LPT (quadrant fees) also includes:
 - 1 week follow up post op visit
 - Occlusal adjustment with Doctor
 - Night Splint – dispense when Doctor feels is appropriate-4-5 weeks post op
- Additional fees associated with LPT are:
 - 1 month follow up with hygienist. 3 units for 1110 (above the gum polish), dispense one more prescription of Peridex as needed
 - 3 Month Perio Maintenance (4910) – first 4910 will be 4 months after surgery

1 prescription of Peridex and 1 week post op is included with sextant LPT. 1 month follow up (1110) is NOT included with sextant only LPT (if needed)

Patients will be on 3 month perio maintenance (4910) until the end of time. Hygienists are not to scale more than 3mm sub for 9 months following surgery. Dispense Peridex prescription at maintenance as needed.
