

Consent for Restoration of Dental Implants

1. The Purpose of dental implant(s) is to provide stability, support and/or retention for a crown, fixed bridge or removable denture in the absence of natural teeth. Based upon thorough examination and discussion, I request the fabrication of an implant prosthesis. I approve any future modifications in the prosthetic design, materials or treatment if, in the doctors professional judgment, he feels that is in my best interest.

1. Fixed-Similar to natural teeth in color and size
2. Fixed- longer and/or larger then natural teeth, and similar color
3. Fixed-Longer and or larger then teeth, with tooth color and pink to replace missing gum
4. Removable-supported by implants
5. Removable-Supported by implants and gums

2. I have been informed and afforded the time to fully understand the purpose and the nature of the implant restorative procedure. I understand what is necessary to accomplish the restoration of the implant previously inserted into or onto the bone and under the gum.

3. Alternatives to this treatment have been explained. I have tried or considered these methods, but I desire an implant prosthesis to help secure the replacement of my missing teeth. The entire procedure has been fully explained, including the benefits and possible risks. I have been given the opportunity to ask questions regarding the procedure and they have answered to my satisfaction. I have not asked for, nor have I received from anyone, a guarantee of the outcome of this procedure.

4. the possible risk and complications for fixed prosthesis include: compromised appearance and/or lack of support of the lip(s) and cheek(s) as a result of inadequate bone; air escaping underneath the prosthesis while talking which may adversely affect speech and/or food entrapment underneath the prosthesis since space is necessary for homecare of implant. The possible risks for removable prosthesis include: sore gums, food entrapment, wearing of attachment components, and initial problems with speech.

5. Excessive forces, as grinding or clenching my teeth, on the implants(s) may lead to loosening and/or fracture of the retaining screws or cement: fracture of the porcelain, metal, or acrylic on the prosthesis; loosening and/or fracture of the implant(s): and/or loss of bone should this occur, including, but not limited to occlusal guards.

6. I understand that if nothing is done any of the following could occur: loss of bone, gum tissue inflammation, infection, sensitivity, looseness of teeth followed by necessity of extraction. Also possible are temporomandibular joint, jaw problems, headaches, referred pains to back of neck and facial muscles and fatigued

7. It has been explained that in some instances implant(s) fail and must be removed. I have been informed and understand that the practice of dentistry is not an exact science: therefore, I understand there are no guarantees or assurances as to the outcome of treatment results.

8. Follow-up care for the implants and prosthesis is extremely important to the success. It will be necessary to return to the office at regular intervals for examinations and service. It has been made clear that failure on my part to keep my mouth, implant post(s) and prosthesis thoroughly clean may jeopardize the success of my implant(s). I realize that unforeseen long-term factors may necessitate additional surgery, modification of the implant(s) or even surgical removal of the implant(s). I also understand that I will be financially responsible for the long-term maintenance and/or any

modifications required, including but not limited to cleanings, attachment replacements, x-rays and examinations.9. To my knowledge, I have given an accurate report of my physical and mental health history. I understand that excessive smoking, alcohol, or blood sugar may effect gum healing and may limit the success of the implant(s) and restoration. I will report any significant change in my health should it occur.10. I consent to photography, filming, recording, x-rays, and additional professional staff observing the procedure to be performed for the advancement of implant dentistry, provided my identity not revealed.

11. I agree to notify the doctors office of any and all changes to my address and/or telephone within a reasonable time frame (two to four weeks), so future follow-up care may be established.

12. If an unforeseen condition arises in the course of treatment which calls for the performance of procedures in addition to or different from that contemplated, I further authorize and direct my doctor, associate or assistant to do whatever they deem necessary and advisable under the circumstances, including the decision not to proceed with the implant restoration.
